### UPDATE- Provincial Flood Forecast – Update on Warnings, Watches, Advisories Issued: 25July2012 2:30PM

The following are the current provincial flood watches, warnings and advisories:

- **Chilcotin River – High Streamflow Advisory (ENDED)**
- **Central Interior (including small creeks and rivers in the Chilcotin, Fraser Canyon, Cariboo, and Thompson Region, including Baker Creek) – High Streamflow Advisory (ENDED)**

Weather has improved across the province over the past day, and rainfall earlier in the week has now passed through river systems, and rivers levels are now dropping. Rivers are below levels of concern and are expected to continue to drop through the remainder of the week.

The River Forecast Centre will continue to monitor conditions and will provide updates as conditions warrant.

---

A **High Streamflow Advisory** means that river levels are rising or expected to rise rapidly, but that no major flooding is expected. Minor flooding in low-lying areas is possible.

A **Flood Watch** means that river levels are rising and will approach or may exceed bankfull. Flooding of areas adjacent to affected rivers may occur.

A **Flood Warning** means that river levels have exceeded bankfull or will exceed bankfull imminently, and that flooding of areas adjacent to the rivers affected will result.
