All SI are shown to the nearest metre referenced at 50 years breast height age. Where the age of the stand is greater than breast height age, SI is adjusted to reflect breast height age and height, estimated SI is shown after, or replaces the SI.

4e. ESTIMATED SITE INDEX

SI is estimated when suitable SI trees cannot present, e.g. young stands. Type Group and SI Estimated source code provides 0 Associated fields in the data bases are Inventory Type Group and SI Estimated source code
