MAP SYMBOLOGY

Forest Inventory Features:

- Forest Vegetation Polygons
- Structure Opening Vegetation
- Permanent Sample Plot (GPS)
- Research Installations

TRM Base Features:

- As Built Roads
- Forest Tenure Road Lines
- Paved Roads
- Unpaved Roads
- Trails/Cutlines
- Railways
- Air Force
- Other Lines
- Powerlines
- Buildings
- Misc Areas
- Water Lines
- Hydroelectricity - DSM
- Wastewater - DSM
- Wastewater - DSM
- Waterlines - DSM
- Other - DSM

Administrative Boundaries:

- BC Provincial Boundary
- FLNRO Region boundary
- Resource District boundary - FADM
- FLNRO Region boundary - FADM
- Provincial Forest area - FADM
- Forest Supply Area block - FADM
- Tree Farm Licenses - FADM
- Land District boundary
- Administrative boundary
- Survey Points - Tantalus
- Municipal boundary (1:100,000 scale - 15% hatch)
- Municipal boundary (1:100,000 scale - no hatch)
- National Parks
- Provincial Parks
- Conservation Reserves
- Protected Areas
- Recreation Areas

Example of a Vegetation Label

LINE DESCRIPTION

1 Structure symbol and Opening Number

2 Polygon Number and multi-layer label indicator (L)

3 Species Composition

4 Age, Height, Crown Closure Class Code, separately: Size Index / estimated density

5 Vegetation History Code (or non-vegetation history code) (0-1 to 99)

6 Disturbance History Code (or non-disturbance history code) (0-1 to 99)

7 Disturbance History Code (or non-disturbance history code) (0-1 to 99)

8 Disturbance History Code (or non-disturbance history code) (0-1 to 99)

Line 1 - History Record Opening Number

0000 - opening number has not been assigned

Line 2 - Polygon No. / Multi-layer

VRMS Polygon Number - ranging from one to nine digits

A - Multi-layer label / a separate description of each layer is available in the data base (i.e. 1-2)

Line 3 - Species Composition

Species Composition: Species are labeled in their order of predominance. Major first Minor in brackets.

The following codes are based on "The B.C. Ministry of Forests Tree Code List" version 4.5 dated January 2009.

Line 6 - Disturbance History

Disturbance type codes are created by symbol, followed by earliest date.

First character of disturbance type designates category; refer to official code list for sub-category descriptions.

Second character of disturbance type designates category; refer to official code list for sub-category descriptions.

Third character of disturbance type designates category; refer to official code list for sub-category descriptions.

Fourth character of disturbance type designates category; refer to official code list for sub-category descriptions.

Fifth character of disturbance type designates category; refer to official code list for sub-category descriptions.

Sixth character of disturbance type designates category; refer to official code list for sub-category descriptions.

Seventh character of disturbance type designates category; refer to official code list for sub-category descriptions.

Eighth character of disturbance type designates category; refer to official code list for sub-category descriptions.

Ninth character of disturbance type designates category; refer to official code list for sub-category descriptions.

Tenth character of disturbance type designates category; refer to official code list for sub-category descriptions.

Eleventh character of disturbance type designates category; refer to official code list for sub-category descriptions.

Twelfth character of disturbance type designates category; refer to official code list for sub-category descriptions.

Thirteenth character of disturbance type designates category; refer to official code list for sub-category descriptions.

Fourteenth character of disturbance type designates category; refer to official code list for sub-category descriptions.

Fifteenth character of disturbance type designates category; refer to official code list for sub-category descriptions.

Sixteenth character of disturbance type designates category; refer to official code list for sub-category descriptions.

Seventeenth character of disturbance type designates category; refer to official code list for sub-category descriptions.

Eighteenth character of disturbance type designates category; refer to official code list for sub-category descriptions.

Nineteenth character of disturbance type designates category; refer to official code list for sub-category descriptions.

Twentieth character of disturbance type designates category; refer to official code list for sub-category descriptions.

Twenty-first character of disturbance type designates category; refer to official code list for sub-category descriptions.

Twenty-second character of disturbance type designates category; refer to official code list for sub-category descriptions.

Twenty-third character of disturbance type designates category; refer to official code list for sub-category descriptions.

Twenty-fourth character of disturbance type designates category; refer to official code list for sub-category descriptions.

Twenty-fifth character of disturbance type designates category; refer to official code list for sub-category descriptions.

Twenty-sixth character of disturbance type designates category; refer to official code list for sub-category descriptions.

Twenty-seventh character of disturbance type designates category; refer to official code list for sub-category descriptions.

Twenty-eighth character of disturbance type designates category; refer to official code list for sub-category descriptions.

Twenty-ninth character of disturbance type designates category; refer to official code list for sub-category descriptions.

Thirtieth character of disturbance type designates category; refer to official code list for sub-category descriptions.

Thirty-first character of disturbance type designates category; refer to official code list for sub-category descriptions.

Thirty-second character of disturbance type designates category; refer to official code list for sub-category descriptions.

Thirty-third character of disturbance type designates category; refer to official code list for sub-category descriptions.

Thirty-fourth character of disturbance type designates category; refer to official code list for sub-category descriptions.

Thirty-fifth character of disturbance type designates category; refer to official code list for sub-category descriptions.

Thirty-sixth character of disturbance type designates category; refer to official code list for sub-category descriptions.

Thirty-seventh character of disturbance type designates category; refer to official code list for sub-category descriptions.

Thirty-eighth character of disturbance type designates category; refer to official code list for sub-category descriptions.

Thirty-ninth character of disturbance type designates category; refer to official code list for sub-category descriptions.

Fortieth character of disturbance type designates category; refer to official code list for sub-category descriptions.

Forty-first character of disturbance type designates category; refer to official code list for sub-category descriptions.

Forty-second character of disturbance type designates category; refer to official code list for sub-category descriptions.

Forty-third character of disturbance type designates category; refer to official code list for sub-category descriptions.

Forty-fourth character of disturbance type designates category; refer to official code list for sub-category descriptions.

Forty-fifth character of disturbance type designates category; refer to official code list for sub-category descriptions.

Forty-sixth character of disturbance type designates category; refer to official code list for sub-category descriptions.

Forty-seventh character of disturbance type designates category; refer to official code list for sub-category descriptions.

Forty-eighth character of disturbance type designates category; refer to official code list for sub-category descriptions.

Forty-ninth character of disturbance type designates category; refer to official code list for sub-category descriptions.
