No Data

Red (~2006 - 2007)

New Grey (~2003 - 2005)

Old Grey (~2000 - 2002)

Note: The MPB red attack map overlies areas of grey attack on this attack status map. Typically, there are areas where the attack has occurred in successive stages (e.g., where the beetle has moved from one area of a forest cover polygon to another over a period of time). On the map, higher red areas indicate red attack over 'new grey', while darker red areas indicate red attack over 'old grey'. Note: only the most recent (2007) recent and very recent red attack has been displayed.
