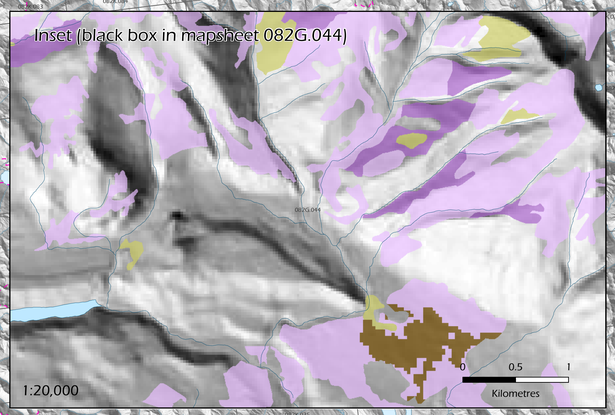
MPB Attack Status - Cranbrook TSA 2007



Legend

- City/Town
- Major Road/Highway
- River/Stream
- Lake/Major River
- TSA Boundary
- 1:20K TRIM Index Grid
- Fire (1997 - 2007)
- Protected Area
- Tree Farm Licence

MPB Attack Status (Year of Attack)

- No Data
- No Attack (Recently Harvested)
- Red (~2006 - 2007)
- New Grey (~2003 - 2005)
- Old Grey (~2000 - 2002)

Note: The MPB red attack may overlap areas of grey attack on this attack status map. Typically, these are areas where the attack has occurred in successive stages (e.g., where the beetle has moved from one area of a forest cover polygon to another over a period of time). On the map, lighter red areas indicate red attack over 'new grey', while darker red areas indicate red attack over 'old grey'. Note: only the most recent (2007) severe and very severe red attack has been displayed.
