Tree Farm Licence

MPB Attack Status

No Data

Red (~2006 - 2007)

New Grey (~2003 - 2005)

Old Grey (~2000 - 2002)

Note: The MPB red attack may overlap areas of grey attack on the attack status map. Typically there are areas where the attack has occurred in successive years (e.g., where the beetle has moved from one area to a forest cover polygon over a period of time). On the map, lighter red areas indicate red attack over 'new grey' while darker red areas indicate red attack over 'old grey'. Maps using the most recent (2007) census and any census not shown are not shown.
