# Harvest Billing System
# Release 22 Summary of Functionality
# September 10, 2012

The focus of this Release is:

1. Scale Returns
2. Stratum Advisor
3. Queries
4. User Services

The following is a list of enhancements included in HBS Release 22:

| Function/Subsystem | Summary (specific ticket refs and descriptions to be replaced) |
|---|---|
| **Scale Returns** | Add capability for HBS to bill Area-Based summary returns for Cruise-Based sales. |
| **Stratum Advisor** | Repair stratum number link error and add new validations, after interim calculations. |
| **Stratum Advisor** | Reformat the calculation for computing standard deviation, ratio and precision for strata. |
| **Stratum Advisor** | When Stratum Plan Administrators do not check the 'Apply Population Values to Stratum' check boxes, HBS will no longer change the effective dates at the Stratum levels. |
| **Queries** | Remove the links to the Single Invoice and Multiple Invoices - until October 31, 2003 options. |

# Harvest Billing System
# Release 22 Summary of Functionality
# September 10, 2012

| Function/Subsystem | Summary (specific ticket refs and descriptions to be replaced) |
|---|---|
| **Queries** | Add Deciduous Cruise Volumes to the Timber Mark Query Screen. |
| **Queries** | Remove FTA Allowable Annual Cut fields from the Timber Mark Query Screen. |
| **Queries** | Modify HBS reports (XML's, PDF's, screen displays) to conform to Freedom Of Information and Protection of Privacy Act regulations. |
| **User Services** | Create new Industry Role, Cruise Based Administrator (CBA), to provide Industry users the ability to enter Area Based returns online. |
