

Performing Bulk Changes

There are several things to remember when performing bulk actions.

1. Scale Returns must be in **HELD** status before they can be modified.
2. To perform Cancel, Cancel & Replace With or Without Changes and Replaces With or Without Changes, the Scale Returns must be in **ISSUED** status
3. A bulk action can only be performed on up to 25 returns at a time.
4. Several searches must be performed for the returns using different criteria as they move through the process.
5. Always identify the returns you want to modify by using the check boxes.
6. **RELEASE** the returns back into the billing stream after they are modified.

In this example, returns with a Timber Mark of 78222 are being changed to 79222. A Weight Scale search is performed on returns in error with the incorrect Timber Mark of 78222.

Begin by performing a search for the returns by using the Set of Returns – Details, on the Scale Returns tab. When the search results list is displayed, click the [Request Bulk Action](#) button.
