

What's New, Version 1.3

1. Waste 303 - Submission Agreement

Version 1.3 implements a revised 303 Submission Agreement which a user must complete when submitting an annual plan, reporting unit or block.

New enhanced features are:

- Automatic retrieval of the submitter's name,
- Specification of the submitter's role as one of:
 - licensed surveyor
 - licensed scaler
 - licensed surveyor and scaler
 - unlicensed surveyor
- validation of the submitter's licence number,
- fields for entering RPF/RFT sponsor,
- ability to enter comments and view comments using a hyperlink button
- automatic send out of email receipt to submitter and if the work is sponsored, email notification to RPF/RFT (a future enhancement will include email notification to district).

2. Waste 205 - Ocular Estimate

The error message has been corrected to state that the estimate (m³/he) must not exceed 999.9.

A future enhancement will lengthen this field for not exceeding 99999.9.

3. FS 702 Report

The calculation of WMRF on FS 702 for interior catastrophic when grade 3 exceeds the waste benchmark has been fixed.
