

These are the challenges and issues that were noted from March 5 2010 FMLT meeting.

Challenges:

1. Risk averse, too prescriptive strategies
2. Common understanding
3. First nation consultation, communication expectations, where are the goal posts
4. Collaboration, advocacy for timber supply
5. Trust
6. Need more element of risk taking
7. Interagency collaboration
8. Balance other resource needs with industry needs ie recognize industry needs, finite landbase, cumulative effect

Issues:

1. Powder worm – scaling
2. Permit approval timeframes
3. FN consultation – pre and post treaty
4. FN info communication – treaty implementation
5. Old growth pressure
6. CP holdups- appraisal, terrain stability field assessment reports
7. CP amendment
8. Appraisal – highest stumpage rationale
9. WHA – CDF
10. Single tree selection appraisal
11. Next round of FSPs
12. Blanket CP salvage
13. Stocking standards
14. Slash burning and hazard assessments
15. Scaling

FMLT volunteers:

1. Derek Drake – lisaak/Ma-mook
2. Mark Carter – Teal Cedar
3. Pete Steeves – Steeves Forest Consulting
4. Ernie DeGeus – BCTS
5. Erin Badesso – WFP
6. MOE rep (unconfirmed)
7. NRFL rep (unconfirmed)
8. Bill Rosenberg – Interfor
9. Paul Knowles - MFR
