Disclaimer:
Wildfire perimeters for the current fire season, including both active and inactive fires, are supplied from various sources. Some of the data may be preliminary and subject to rights to the public map. Wildfire data may not reflect the current fire situation, and therefore should only be used for reference purposes.

Wildfire data from the incident is updated when practicable but may not immediately reflect the current situation. This information is intended for general purposes only and should not be relied upon for navigation purposes. Fire dynamic and circumstances may change quickly. The levels of risk and activity within the mapped fire perimeters can vary widely.
