Quesnel Forest Stewardship Plan

Minor Amendment #4

In accordance with FRPA section 20, a minor amendment has been made to the BCTS Quesnel Forest Stewardship Plan.

Minor amendment # 4

This amendment is required to update section 1.1 - Definitions of the Quesnel Forest Stewardship Plan.

The definitions for Primary and Secondary roads are obsolete due to a change in BCTS road permits that no longer distinguish between part A and part B roads. Road permit roads now simply have an obligation to deactivate or not.

The new definitions read:

“Primary Roads” means roads which are

- (a) constructed under road permit that **does not** contain an obligation for the road to be deactivated, or
- (b) Forest Service Roads;

“Secondary Roads” means roads which are

- (a) constructed under a road permit that **does** contain an obligation for the road to be deactivated, or
- (b) on-block roads;
