Access Instructions

From Williams Lake, travel approximate 14.2km east on Highway 97 and turn left onto the Horsefly-Likely Road. Proceed 4.5km and stay left onto the Likely Road. Proceed to 7.0km and turn left onto the Mountain House Road. Proceed 2.3km and turn right onto the Pit Road. Proceed 9.1km (staying straight at 2.4km, left at 4.4km, straight at 4.8, right at 5.5km and, straight at 8.1km) to the block. Access by quad or sled only until May 1 in spring due to snow and wetter conditions. updated May 2021 KS

Comments

PU#1 and 2: Plant 80% Fdi PSB 412A and 20% Sx PSB 412A 1+0 spring stock. Plant to a target density of 2000 stems/ha with target spacing of 2.4 m and minimum spacing of 1.0 m for all planted conifers ignoring natural regeneration. Do not plant Fir or Spruce in open areas with no adjacent cover. Plant all spruce in the wetter draws and lower flatter sections of the block.
PU2: This area overlaps Migratory bird nest habitat (Rank 4). No mechanical activity May 20-July 21. For planting keep mechanical equipment such as quads moving and turned off as much as possible to avoid prolonged “sensory disturbance” of the nesting birds”.
Priorities: (1) Plant at bottom of rip. (2) Plant within 10cm of dead standing residual stems (North Side) (3) Plant within 10cm of stumps (North side) and/or logs; Larger stumps must have 2 Fir planted around them on the north side; (4) Plant Fir and Spruce in the middle of small regenerating Aspen. KS
