Access Instructions

Detailed directions from Williams Lake:
Access: From Williams Lake, travel west on Highway 20 for 49 km and turn south onto the 2000 Road (Farwell Canyon Road). Travel south and west for 33 km and turn south onto the 2200 Road. Travel south for 20.5 km and transition onto the 2800 Road. Continue south for 12.5 km and turn east onto the 3100 Road. Travel east 3.5 km on the 3100 Road to reach the access road to the block(100m north or left side of the road). The barbed wire range fence across the access road (without gate) limits access to this block to pedestrian only (updated October 2018 KG)

Comments

PU 1: Plant 100% Fdi PSB 412B to a target density of 2000 stems/ ha with target spacing of 2.4 m and minimum spacing of 1.8 m. Approx 1200 sph sowed. Space 1.8 m off acceptable natural and planted Fd. Ignore Pli naturals and plant within 20 cm of natural pine stems, stumps, logs, and rocks where available. Plant into mineral soil or black greasy organic soil. When planting in site prepped areas the tree should be planted at the bottom of the rip. When planted in non site prepped areas a 20 x 20 cm screef is required to prevent the thick grass mat from choking the tree. Use minimum spacing to ensure optimal microsites are utilized and to maintain target densities.KS
