

Please note that the orange-coloured areas on the map are “information gathering polygons”. By consulting on a larger area, it introduces flexibility for smaller cutblocks and roads to be developed within, as concerns are identified and accommodated during our consultation process. It is not anticipated that this entire area will be developed. Final cutblocks will not exceed the maximum cutblock sizes as per the Forest and Range Practices Act (FRPA).

Operating Plan #16 Boundary Kettle North

Important: Proposed blocks and roads are preliminary planning shapes only; final block boundaries and road locations, shape, size and reserve timber will be determined following field work and assessemnts.
