

Cultural Conservation Values

Attribute Recce Form

Date of Recce: October 25, 2019	Block #: ANC-001
Recce completed by: Atlas (AIM) Crews	Geographic Location: Anchor Creek
BCTS Practises Forester: Ed Hadikin	Projected TSL Year: 2020 or 2021
Map Attached? Yes	CCVF Linework:

See LKB - CCVF Management Practises Document for interpretation guidance. At recce stage, it is most critical to note the presence of the value. If there is certainty as to how the value will be managed, indicate briefly as well.

Reference CCVF observations with markups on accompanying Map.
Submit to BCTS PrF for further communication

CCVF Reference #	CC Value	Comment / Observation Management Strategy
1	Ungulate Winter Range	<ul style="list-style-type: none"> Not near UWR.
2	Fish	<ul style="list-style-type: none"> No streams within the block, only NCDs. Goat River is the nearest fish stream which is 700m downslope.
3*	Wetlands	<ul style="list-style-type: none"> Two areas within the block were assessed as NCWs. A roughly 0.02 ha area was assessed as a non-classifiable wetland (NCW) in the far northern extent of the block. The other is a roughly 0.1 ha area in the NW section of the block, and is part of NCD-4.
4*	Riparian Areas	<ul style="list-style-type: none"> The only stream near the block is S6-1 which is approximately 60m+ south of the southern block boundary. Approximately 5 NCDs are located inside or within two tree lengths of the block. See “Wetlands” section above.
5	Grizzly Bear	<ul style="list-style-type: none"> Not located within or near Grizzly GAR; no evidence of grizzly bear use noted.
6	Avalanche Tracks	<ul style="list-style-type: none"> No avalanche tracks noted in the area.
7	Huckleberries	<ul style="list-style-type: none"> Less than 1% ground cover is huckleberry. No significant areas of concentrated huckleberry patches were noted.
8	Snags / Danger trees	<ul style="list-style-type: none"> Snags and danger trees are present throughout the block.
9	OGMA	<ul style="list-style-type: none"> Not located within or adjacent to OGMA.
10*	Veteran Trees	<ul style="list-style-type: none"> A few veteran Fd and Lw were noted at the northern and southern ends of the block. A few veteran Act were noted in the north-western area of the block.
11*	Deciduous Trees	<ul style="list-style-type: none"> Patches of mainly At and some Act are present just outside of the eastern block boundary, as well as in the NW and NE sections of the block.
12	Kianuko Hunting Camp	<ul style="list-style-type: none"> The Kianuko hunting camp is not known to be near the block.
13*	White Pine	<ul style="list-style-type: none"> Only one Pw of significant size was identified in the block. It is healthy, 55cm DBH, and near the center of the block.
14	High elevation grassland	<ul style="list-style-type: none"> The elevation of the block ranges from 975-1250m. Some of the many rocky areas in and around block contain grass cover but none have not been assessed as grasslands due to most of the surface being bare or nearly-bare rock.
15*	Rock Outcrops	<ul style="list-style-type: none"> A few 5-10m tall rock outcrops/cliffs were noted in

		<p>the block.</p> <ul style="list-style-type: none">• Many areas in and around the block have rock at or near the surface. Such areas inside the block have been mapped. Openings visible on ortho maps near the block are generally similar.
16	Fire	<ul style="list-style-type: none">• Some old fire scars were noted on snags, stumps and vets throughout the block.

*See map for feature locations.
