Cultural Conservation Values
Attribute Recce Form *(draft)*

Date of Recce: February 13, 14, & March 1, 2019	**Block #:** ANC-009
Recce completed by: Atlas (AIM) Crews	**Geographic Location:** Anchor Creek
BCTS Practises Forester: Genevieve Lachance	**Projected TSL Year:** TBD
Map Attached? **Y** **N**	**CCVF Linework: Within or Without**

See LKB - CCVF Management Practises Document for interpretation guidance. At recce stage, it is most critical to note the presence of the value. If there is certainty as to how the value will be managed, indicate briefly as well.

Reference CCVF observations with markups on accompanying Map.
Submit to BCTS PrF for further communication

CCVF Reference #	CC Value	Comment / Observation Management Strategy
1	Ungulate Winter Range	• Not located within Ungulate Winter Range.
2	Fish	• Anchor Creek is an S3 that runs along the Western boundary of the block. This may be fish bearing- further assessment is required.
3	Wetlands	• Not located near any wetlands.
4	Riparian Areas	• Riparian areas located along the South and West boundaries of the development. There may be other watercourses located inside the block. Further snow free assessment is required to determine the classification and proper management of these possible watercourses.
5	Grizzly Bear	• Not located within Grizzly GAR; no evidence of grizzly bear use noted; no high value habitats noted.
6	Avalanche Tracks	• No avalanche tracks noted in the area.
7	Huckleberries	• No huckleberries noted. Snow free assessment required.
8	Snags / Danger trees	• There were few snags/ danger trees noted within this Pli dominated stand. What snags were present were in the NE corner of the block where Lw is dominant.
9	OGMA	• Not located within or adjacent to OGMA.
10	Veteran Trees	• Lw and Fd veteran trees noted in the Northeastern and Western parts of the block.
11	Deciduous Trees	• Some deciduous trees observed, mostly near riparian areas. No significant patches in upper elevations
12	Kianuko Hunting Camp	• There is a cabin located at the bottom of the North Anchor FSR on the East side. There is another cabin located about 4.5 km. up the north Anchor that is also on the East side of the road.
13	White Pine	• Pw dispersed throughout the block, larger (45 cm) diameter Pw located in the Northeastern part of the block. Retain Pw where it exists and is healthy.
14	High elevation grassland	• Some openings South of recce plots 151 & 152. Unable to determine ground cover due to 1m snow depths.
15	Rock Outcrops	• Some openings noted South of recce plots 151 & 152. Observations were limited due to snow on the ground.
16	Fire	• Old fire scars noted on snags, stumps and vets throughout the entire block.
