

Cultural Conservation Values

Attribute Recce Form *(draft)*

Date of Recce: December, 2019	Block #: HK-15B
Recce completed by: AIM	Geographic Location: Hawkins, West Yahk River
BCTS Practises Forester:	Projected TSL Year:
Map Attached? Yes	CCVF Linework: Within or Without

See LKB - CCVF Management Practises Document for interpretation guidance. At recce stage, it is most critical to note the presence of the value. If there is certainty as to how the value will be managed, indicate briefly as well.

*Reference CCVF observations with markups on accompanying Map.
Submit to BCTS PrF for further communication*

CCVF Reference #	CC Value	Comment / Observation Management Strategy
1	Ungulate Winter Range (UWR)	<ul style="list-style-type: none"> Most of the block is in UWR, just the NE is not
2	Fish	<ul style="list-style-type: none"> West Yahk River, adjacent to the western boundary, is likely fish bearing The streams adjacent to the northern and southern boundaries might be fish bearing A stream flowing west in to West Yahk River, from roughly the center of the block, could be fish bearing in the lower reach, below the steep ground Snow-free riparian assessment required
3	Grizzly Bear	<ul style="list-style-type: none"> Not in or adjacent to grizzly Government Action Regulation No grizzly signs noted
4	Avalanche Tracks	<ul style="list-style-type: none"> None noted in or adjacent to block
5	Huckleberries	<ul style="list-style-type: none"> Little to none noted in winter Observations next summer could reveal more
6	Riparian Areas	<ul style="list-style-type: none"> West Yahk River, adjacent to the western boundary is possibly an S2 Possible S3 adjacent to northern boundary Possible S4 adjacent to southern boundary A stream flowing west in to West Yahk River, from roughly the center of the block, could be a possible S6 with an S4 lower reach Snow-free riparian assessment required
7	OGMA	<ul style="list-style-type: none"> Not in or adjacent
8	CWD (≥30cm diam)	<ul style="list-style-type: none"> Very little
9	Snags / Danger trees	<ul style="list-style-type: none"> Very few snags/danger trees
10	Veteran Trees (Lw, Cw, Hw, Fd)	<ul style="list-style-type: none"> Largest trees were 50 cm DBH Lw
11	Deciduous Trees	<ul style="list-style-type: none"> Small patches of 20-60 cm DBH At throughout

12	Kianuko Hunting Camp	<ul style="list-style-type: none">• N/A
13	Wetlands	<ul style="list-style-type: none">• None noted
14	White Pine	<ul style="list-style-type: none">• Some were seen throughout• Most looked healthy, <30 cm DBH
15	High elevation grassland	<ul style="list-style-type: none">• None noted
16	Rock Outcrops	<ul style="list-style-type: none">• A couple small rock outcrops were seen, generally along the western boundary
17	Fire	<ul style="list-style-type: none">• A few signs of past fires were present• Bottom 1 m of trees were burnt in the NW area within last 5 years
18	Game Trails	<ul style="list-style-type: none">• Faint wildlife trails dispersed throughout• Deer scat observed
