From the junction of Old Hedley Road and Princeton Summerland Rd in Princeton BC, travel approximately 35km North East on the Princeton Summerland Road. The base of the slide will be visible and accessible here. To access the trail, continue travelling NE to the Chain FSR junction. Travel up Chain FSR approximately 250m to the junction with the KVR. The Shinish Section runs 4.1km to the NE where it intersects the Princeton Summerland Road, and 10.1km to SE where it meets KV-050 a trestle bridge. The top of the Shinish slide is 1.5km South on the KVR from the Chain FSR junction. The Shinish Section is accessed at 3 main points.

- KVR junction at the Princeton Summerland Road on the NE side of the shinish section.
- Chain FSR (directions above)
- Siwash road to the South of the Shinish Slide.

*There is a 4th access point just North of KV-050 in the South but it is not suitable for a lowbed. Pick up and machine access only.
