Re: Small Streams Management Strategy

This document identifies the **Small Streams Management Strategy** adopted by BC Timber Sales Prince George for all blocks developed within forest development units governed by Forest Stewardship Plan #24. All units governed under FSP #24 are contained within the Robson Valley, Prince George, Mackenzie Natural Resource Districts as well as Tree Farm Licenses #30 and 53. This guidance supersedes the requirements of the FSP.

Strategy:

Stream Classification	Reserve Zone	Riparian Mgmt. Zone	Machine Free Zone
Non – Classified Drainage (NCD)	None	None	5 meter
Stream Class 6 (S6) < = 3m wide	5 meter	20 meter	5 meter
Stream Class 5 (S5) > 3m wide	10 meter	30 meter	5 meter
Stream Class 4 (S4) < 1.5m wide	10 meter	30 meter	5 meter
Stream Class 3 (S3) 1.5 - 5m wide	20 meter	20 meter	None
Stream Class 2 (S2) 5 - 20m wide	30 meter	20 meter	None
Stream Class 1 (S1) 20m - 100m wide	50 meter	20 meter	None
Stream Class 1 (S1) >100m wide	None	100 meter	None

****FSP Results and Strategies for Wetlands, Lakeshores and Streams are as per Section 5.1.2.3 of the BCTS FSP.**
