

ID	Class	Comments
R1-NCD	NCD	Brush and immature timber around this feature are retained outside of the block boundary. One crossing will be required.
R2-S6	S6	The RMZ is retained outside the block.
R3-S6	S6	The RMZ is retained outside the block.

Safety Concerns / Harvesting Considerations

- Maintain natural drainages.
- Tree-felling activities for timber types 11 and 12 are restricted to occur outside of May 25-July 23 of each year due to migratory birds. Timber type 10 does not have timing restrictions.
- Fall away from external WTPs, adjacent blocks, riparian features, and the block boundary.
- Block 10078 is in a mapped Caribou Herd Range. To minimize ground disturbance, winter harvest with frozen snow-covered ground conditions. Limit herbicide use. Prescribe road deactivation and visual buffers to minimize potential external pressure on caribou populations.No lichens were found during development.

Riparian Crossings

One snowfill crossing will be required over R1-NCD.

Access Instructions

From Fort St John, travel north on HWY97 for ~77km, then turn left onto the Upper Halfway Road. Travel for 64km, then turn right onto the Halfway-Graham FSR. After 2.4km, turn right onto an old block road. The proposed block road is located after 600m.
