

Riparian Features

ID	Class	Comments
R1-S6	S6	The riparian zone has been reserved outside of the block.
R10-NCDNCD		The NCD is located outside the block boundary.
R11-S6	S6	The riparian zone has been reserved outside of the block.
R2-NCD	NCD	The NCD is located outside the block boundary.
R3-S6	S6	The riparian zone has been reserved outside of the block.
R4-S6	S6	The riparian zone has been reserved outside of the block.

10075 Riparian Crossings

N/A

10075 Safety Concerns

Maintain natural drainages.

There will be no tree-felling activities during May 25 - July 23 of each year. Chance Find and Stop Work procedures will apply.

Fall away from external WTPs, internal patches, adjacent blocks, private land, riparian features, and the block boundary.

TA1296-10075-02 no decking on the right side from station 3 to 4 due to steep downhill side slopes.

TA1296-10075-A no decking on the left side from station 17 to 19 due to steep downhill side slopes.

It was noted that the road and Area's of Special Concern spatial layers appear to be less than 20m in distance. The Areas of Special Concern field locations were ground-truthed to be greater than 20m away from the road centerline in the field.

10075 Harvest Constraints

This block is located within a mapped Caribou Herd Range. To minimize ground disturbance, winter harvest with frozen snow covered ground conditions. Limit herbicide use. Prescribe road deactivation and visual buffers to minimize potential external pressure on caribou populations. No lichens were found during development. Pockets of subalpine fir regeneration are present; retain all understory regeneration where operationally feasible and safe to do so.

Harvesting within Area of Special Concern is scheduled to occur under winter conditions with snowpack to prevent ground disturbance or via reaching in with the machinery and leaving tree stumps intact.

Access Instructions

From Fort St John, head north on HWY97N for 76km. Turn left onto Upper Halfway Road. Travel 54km (eventually turning into Halfway Graham Road). Turn right, after the bridge, onto Simpson Road and continue for 9.6km. Turn left onto the 38-200 Road. The proposed access road is located on the right after 1.1km.
